

How do I get a security code when the "Get Security Code On-line" button is grayed out?

Lunes 09 de Marzo de 2009 02:18 - Last revised Miércoles 01 de Julio de 2009

This occurs when the user's computer is either not connected to the Internet, or is otherwise blocked by a firewall or proxy server from connecting to the security code server.

You may get a security code online by clicking [here](#) .
