

Can I run the RBCA Tool Kit in non-English versions of Office and Windows?

Lunes 09 de Marzo de 2009 02:28 - Last revised Miércoles 01 de Julio de 2009

Since there have been reports of problems running the RBCA Tool Kit under non-English language versions of Excel and Windows with success, GSI recommends using the English language versions of both Excel and Windows, and will not support users running in any other versions.
